Q&A

Where can this product be used?

This product is well-suited specially for high-touch areas like table tops, countertops, chairs and toilet seat covers.

What is the active ingredient of this product?

The active ingredient is a Quaternary Ammonium Compound (Benzalkonium Chloride). It is formulated in accordance with NEA's guidelines for "Active Ingredients and Their Working Concentrations Effective Against Coronaviruses."

Why can I trust the antibacterial effectiveness of this product?

Their antibacterial activity is tested to BSEN 1040:2005, the European Standard for Chemical Disinfectants and Antiseptics. It is also listed on NEA's "Interim List of Household Products Effective Against Coronavirus", demonstrating verified efficacy against pathogens of concern.

How is this product cost-effective for daily use?

Its ready-to-use, quick-drying and no-rinse formula reduces labour time, product waste, and the need for repeat cleaning.
