## DID YOU KNOW?

Our hands carry approximately 3200 different germs belonging to more than 150 species of which some can be harmful and cause infection. Regular Hand Washing and Hand Sanitizing is essential to reduce transmission of germs and prevent cross infection.

## HOW TO SANITIZE YOUR HANDS?

Duration of entire procedure - 20-30 seconds. If hands are visibly soiled, they should be washed with soap and water before applying Hand Sanitizer.

**1**  
Pump adequate amount of hand sanitizer onto palms.

**2**  
Rub palms together.

**3**  
Interlock your fingers and rub palms together again.

**4**  
Spread over the back of hands.

**5**  
Rub over the back of fingers of both hands.

**6**  
Rub each thumb and the area between index finger & thumb.

**7**  
Rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa.

**8**  
Continue until hands are dry.
