Made from 100% pure pulp, NuPaper Hand Roll Towel delivers superior absorbency, reducing the need for multiple sheets and ensuring effective drying. With a robust 40 gsm thickness, it offers good strength & durability, minimizing tears and guaranteeing optimal use. Its compact roll design is tailored for hygienic dispensing, releasing just a single-use paper towel at a time to prevent germ spread — perfect for high-traffic environments like restaurants, offices, and schools. Compatible with most standard Paper Towel Roll Dispensers. Proudly FSC-certified, NuPaper is sourced from environmentally responsible & sustainable sources.

## FEATURES

### SUPERIOR ABSORBENCY

Delivers superior absorbency, reducing the need for multiple sheets for effective drying.

### STRONG & DURABLE

Offers good strength and durability, ensuring fewer tears and optimal use.

### HYGIENIC & CONVENIENT

The compact roll design releases one single-use paper towel at a time, minimizing germ spread & offering efficient dispensing.

### FSC-CERTIFIED COMMITMENT

Proudly sourced from environmentally responsible & sustainable sources.
