| Model No. | : i-Bin MRB650 |
| Capacity | : 50 Litres |
| Material | : Stainless Steel Body & ABS Cover Lid |
| Colour | : Black-White / Black-Black |
| Operation | : 6 'AA' size alkaline batteries, supports 3,600 lifts (approximately 4 months based on 30 lifts a day) |
| Dimension | : 340mm (L) x 250mm (W) x 720mm (H) |
| Pack Size | : 1 unit per carton FCL 20" - 740 units |

Touch Free Mode

The lid opens automatically when motion is detected within a 10-25 cm range in front of the touch screen. Movements closer than 10 cm are intentionally ignored to ensure accurate and reliable activation.

Manual Open Mode

The Manual Open Mode allows user to control the bin lid directly, without relying on automatic sensors.

To activate Manual Open Mode: Touch the "OPEN" button to open the lid.

To keep the lid open: Once the lid is open, it will stay open until user manually close it.

To close the lid: Touch the "CLOSE" button to return to the Touch Free mode. In this mode, the lid will stay open until user decide to close it, and the bin will not automatically close after 120 seconds like in Touch Free mode. This is useful when you need to leave the lid open for an extended period.

CONSUMABLES

Product : **Cheerie Fragranced and Antimicrobial Bin Liner**
Model : **ERE2035 (White)**
