

# ECOFAST 01 AUTO HAND DRYER

EcoFast 01

**10-15s  
DRY**

## Experience The Future Of Hygiene

A high-speed, energy-efficient hand drying solution designed for sustainable environments.

### Why choose me?

#### HIGH-SPEED HAND DRYER

Ultra-compact, high-speed drying—perfect for tight spaces.

#### SAFE & DEPENDABLE

Auto-reset thermostat ensures consistent safety and reliability.

#### ENERGY-SAVING EFFICIENCY

Up to 80% energy savings due to low power consumption.

#### ECO-FRIENDLY

Made from recyclable materials to support sustainable operations.

## Q&A

### How fast does this product dry hands?

This product dries hands in approximately 10–15 seconds, with its high-speed air performance.

### Is this product safe for continuous use?

Yes. It is equipped with an auto-resetting thermostat and a 60-second auto shut-off to prevent overheating and ensure user safety.

### How energy-efficient is this product?

It delivers up to 80% energy savings compared to conventional hand dryers due to its low power consumption and fast drying time.

### Is this product eco-conscious?

Yes. It is constructed from sustainable, recyclable materials and designed to reduce both energy usage and environmental impact.

### PRODUCT SPECIFICATIONS

Material	: Steel
Colour	: White / Black
Dimensions	: 250mm (L) x 138mm (W) x 170mm (H)
Voltage	: 220/240 Volts, 50–60 Hz
Operating voltage	: 1KW
Max air speed	: 90 m/s (Adjustable)
Sensing range	: 170mm ± 20mm (Adjustable)

### DIRECTIONS OF USE

1. Ensure the hand dryer is properly installed and powered on.
2. Place hands within the sensor range.
3. The dryer will automatically activate once hands are detected.
