Q&A

Where can this product be used?

This product is ideal for use in childcare centres, retail shops, classrooms, theatres, gyms and other high-traffic areas.

What makes this product different from regular air fresheners?

This product contains a minimum of 70% alcohol and has been tested to kills 99.99% of germs, while also deodorizing the air and eliminating stale odours.

Will the scent be overpowering?

No, this product is pleasantly fragranced with a light tea scent designed to refresh the air, making it suitable for repeated use.

How often should it be used in high-traffic areas?

It is recommended to mist the product every 2-4 hours or whenever there is increased human traffic movement.
