Q&A

Where can this product be used?

This product is well-suited specially for commercial kitchens, food-handling areas, schools, factories, commercial facilities, and delivery vehicles.

What is the active ingredient of this product?

The active ingredient is a Quaternary Ammonium Compound (Benzalkonium Chloride). It is formulated in accordance with NEA's guidelines for "Active Ingredients and Their Working Concentrations Effective Against Coronaviruses."

Why can I trust the antibacterial effectiveness of this product?

Their antibacterial activity is tested to BSEN 1040: 2005, the European Standard for Chemical Disinfectants and Antiseptics. This product is also listed on NEA's "Interim List of Household Products Effective Against Coronavirus", demonstrating verified efficacy against pathogens.

How is this product cost-effective for daily use?

Its ultra-concentrated formula with 1:20 dilution delivers efficient cleaning, disinfection, and sanitization, while reducing chemical and labour costs.
