Q&A

Where can this product be used?

This product is ideal for floors, hard surfaces, washrooms, drains, and laundry sanitizing in the household.

What is the active ingredient of this product?

The active ingredient is Chloroxylenol. It is an antimicrobial agent commonly used in household disinfectants to kill bacteria and certain viruses on surfaces and fabrics.

Why can I trust the antibacterial effectiveness of this product?

This product is listed on NEA's "Interim List of Household Products Effective Against Coronavirus", demonstrating verified efficacy against pathogens.

How is this product cost-effective for daily use?

Its ultra-concentrated formula dilutes up to 40 times, reducing cost per use for daily cleaning.

PRODUCT SPECIFICATIONS

Active Ingredient : Chloroxylenol - 4.8%

Net content : 5LT

Formulation : Clear light brown liquid scented with pine fragrance

DIRECTIONS OF USE

1. For floors & hard surfaces:

Mix 3 capfuls with 2.5 litres of water, mop or wipe the surface clean.

2. For washrooms, sinks & drains:

Use undiluted. Scrub and rinse with water.

3. For laundry sanitizing:

- Machine wash

Add 1-2 capfuls with detergent.

- Soaking

Mix 1 capful with 1.5 litres of water, soak for 5-10 minutes, then rinse.
