

HK-1800PA AUTO SENSOR HAND DRYER

HK-1800PA

**35s
DRY**

Experience the Future of Hygiene

A high-speed, energy-efficient hand drying solution designed for sustainable environments.

Why choose me?

HIGH-SPEED HAND DRYER

Ultra-compact, high-speed drying—perfect for tight spaces.

NON-TOUCH OPERATION

Advanced sensors reducing cross-contamination.

DURABLE & COMPACT

Made from high-quality material for long-lasting, low-maintenance use.

SAFETY POWER CUT-OFF

Automatic shut-off prevents overheating for safe operation.

Q&A

How fast does this product dry hands?

This product dries hands in approximately 35 seconds, with its high-speed air performance.

Is this product safe for continuous use?

Yes. It features a built-in safety power cut-off with automatic shut-off to prevent overheating, making it safe for continuous and frequent use.

How energy-efficient is this product?

It is designed for quick drying with controlled operating power (1.8 KW), supporting cost-effective operation.

Is this product eco-conscious?

Yes. It is constructed from sustainable, recyclable materials and designed to reduce both energy usage and environmental impact.

PRODUCT SPECIFICATIONS

Material	: Acrylonitrile Butadiene Styrene (ABS)
Colour	: White / Black
Dimensions	: 268mm (L) x 177mm (W) x 230mm (H)
Voltage	: 220/240 Volts, 50-60 Hz
Operating voltage	: 1.8 KW
Max air speed	: 14.5 m/s (Adjustable)
Sensing range	: 180mm ± 20mm (Adjustable)

DIRECTIONS OF USE

1. Ensure the hand dryer is properly installed and powered on.
2. Place hands within the sensor range.
3. The dryer will automatically activate once hands are detected.
