Q&A

Where can this product be used?

This product is ideal for use in commercial kitchens, food preparation and processing facilities, industrial cleaning areas, and food delivery vehicles.

What is the active ingredient of this product?

The active ingredient is a Quaternary Ammonium Compound (Benzalkonium Chloride). It is formulated in accordance with NEA's guidelines for "Active Ingredients and Their Working Concentrations Effective Against Coronaviruses."

Why can I trust the antibacterial effectiveness of this product?

This product is listed on NEA's "Interim List of Household Products Effective Against Coronavirus", demonstrating verified efficacy against pathogens of concern.

How is this product cost-effective for daily use?

Its 1:50 dilution delivering strong degreasing and bactericidal performance with less product per use, reduce chemical consumption, storage needs, and overall cleaning costs making it ideal for daily use.

PRODUCT SPECIFICATIONS
