Designed for use wherever sanitation is essential to prevent cross-infection.

EQA1638

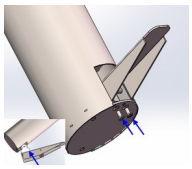

STAINLESS STEEL STEP PEDAL HAND SANITIZING STATION

SPECIFICATION

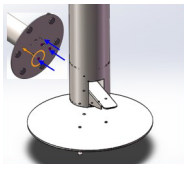

Model No.	:	EQA1638
Material	:	Stainless Steel 201
Operation	:	Fully mechanical foot operated design
Dimension	:	100mm (W) x 1000mm (H)
Base Diameter	:	300mm
Total Weight	:	5.3kg (Body 3.4kg / Base 1.9kg)

USER GUIDE

Installation – Can be bolted to the floor if required.

1. First, place the foot pedal onto the cylinder body, ensuring the side with the guide wheel faces upward. Then tighten the pedal using two M4×10 screws.

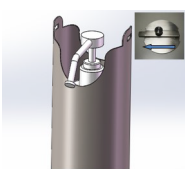

2. Fix the disc base on the body with three M6x8 screws, and the side with cotton pad is downward.

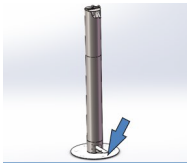

3. Loosen the nut, and move the clip with nut in one direction. Take out the upper cover upwards.

4. Take out the inner supporting rod, rotate the telescopic rod left and right until it is adjusted to the proper length (adjust according to the height of the spray pot). Note: The spray pot with the original machine doesn't need to be adjusted.

5. Place the spray pot in the cylinder body. Insert the long end of the upper cover strip which one is exposed into the upper end of the body. After placing stably, then move the screw clip from the other end to the center position, tighten the screws.

6. After installation according to the above steps, put it in a proper position. It can be used when you step down on the foot pedal.

FEATURES

TOUCH-FREE OPERATION

Contactless operation for hygienic dispensing of sanitizer solution.

FOOT-OPERATED DESIGN

Fully mechanical foot-operated design that fits all foot sizes.

DURABLE CONSTRUCTION

Heavy-duty stainless steel design with a sturdy base.

LARGE CAPACITY

Includes spray nozzle and 1000ml sanitizer container for top up.
